Clue: All numbers you can see belong in one equation. These numbers can all be written in 1 line instead of 3.

[See Answer](#) | [Go Back to the Riddle](#)

5.

Answer: The answer is 30.

There are two tricks in this question.

The first is 1 times 0. This is only a distraction. Yes, 1 times 0 is 0, but that doesn't affect anything else in the equation. The second trick is that the lines ending with 1 don't have a + sign next to them. That means they should be combined with the following line.

Here are the numbers, all on one line:

$$1 + 1 + 1 + 1 + 11 + 1 + 1 + 1 + 11 + 1 \times 0 + 1 = ?$$

And the answer to that equation is 30.
